The River's Allure

The West Branch of the Ausable River originates from Lake Placid, the host of the 1932 and 1980 Winter Olympics, and flows for approximately 25 miles before joining the East Branch to form the main Ausable River. Its pristine waters are renowned for their clarity, allowing anglers to easily spot their quarry beneath the surface. The river's gradient varies from gentle riffles to cascading waterfalls, creating diverse habitats that support a thriving trout population.

Brown Trout Haven

The West Branch of the Ausable River is home to an abundance of wild brown trout, ranging in size from 12 to 24 inches. These fish are known for their voracious appetites and acrobatic leaps when hooked. The river's varied habitat, including deep pools, undercut banks, and rocky riffles, provides ample feeding and hiding spots for these elusive creatures.

Fly Fishing Techniques

To successfully fly fish the West Branch of the Ausable River, anglers must employ a range of techniques. Dry fly fishing, using flies that float on the water's surface, is particularly effective during the summer months when insects are abundant. Nymphing, utilizing weighted flies that mimic aquatic insects, is also a productive technique throughout the year.

The river's fast-flowing currents and rocky bottom require anglers to use precise casts and heavy tippetts to ensure their flies reach the desired depth and location. Patience and persistence are key, as the trout in this river are often selective feeders.

Tackling the Challenges

Fly fishing the West Branch of the Ausable River is not without its challenges. The river's swift currents can test even experienced anglers, and the abundance of rocks and downed trees requires careful wading. Additionally, the trout in this river are known for their wariness, making it essential to use stealthy approaches and accurate casting techniques.

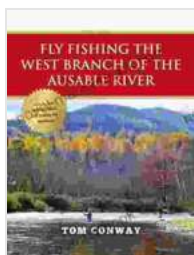

Fly fishing the West Branch of the Ausable River requires precise casting and careful wading.

Exploring the River

The West Branch of the Ausable River is accessible from several points along its length. The Wilmington Notch area, located in the heart of the Adirondacks, offers excellent fishing opportunities from both the riverbanks and by boat. Downstream, the river meanders through the towns of Jay and Keene, providing angler access via public fishing easements and designated fly fishing areas.

The river's scenic beauty enhances the fishing experience. The Ausable River Valley is a mosaic of forests, meadows, and mountains, creating breathtaking vistas that will captivate anglers of all levels.

Fly fishing the West Branch of the Ausable River is an unforgettable adventure that combines the thrill of the chase with the serenity of nature. The river's pristine waters, abundant trout populations,
