Stanley was born in Wales in 1841. He left home at a young age and worked as a journalist in the United States. In 1869, he was sent to Africa by the New York Herald to find Livingstone, who had been missing for several years.

Livingstone was born in Scotland in 1813. He was a medical doctor and missionary who devoted his life to exploring Africa. In 1841, he set out on

his first expedition to the continent. Over the next 30 years, he traveled thousands of miles and made many important discoveries.

Stanley and Livingstone finally met in 1871 at Ujiji, a town on the shores of Lake Tanganyika. Stanley had been searching for Livingstone for months, and he was overjoyed to find him alive and well. The two men spent several months together, and they became close friends.

In 1874, Stanley and Livingstone embarked on a joint expedition to explore the Congo River. The journey was perilous, and they faced many challenges along the way. They were attacked by hostile tribes, they were plagued by disease, and they nearly starved to death.

Despite the hardships, Stanley and Livingstone persevered. They reached the mouth of the Congo River in 1877, and they had made a major contribution to the exploration of Africa. Livingstone died in 1873, but Stanley continued to explore the continent for many years.

The epic adventures of Stanley and Livingstone are a testament to the human spirit of exploration and discovery. Their journey across Africa was one of the greatest feats of exploration in history, and it helped to open up the continent to the world.

Stanley's Search for Livingstone

In 1869, Henry Morton Stanley was sent to Africa by the New York Herald to find David Livingstone. Livingstone had been missing for several years, and there were fears that he had been killed.

Stanley's search for Livingstone was a perilous journey. He traveled thousands of miles through dense jungle and across treacherous rivers. He was attacked by hostile tribes and he nearly died from disease.

Despite the hardships, Stanley never gave up. He was determined to find Livingstone, and he finally succeeded in 1871. Stanley and Livingstone met at Ujiji, a town on the shores of Lake Tanganyika. Stanley was overjoyed to find Livingstone alive and well, and the two men spent several months together.

Stanley's search for Livingstone was a major media event. The world was eager for news of the missing explorer, and Stanley's dispatches from Africa were eagerly read by millions of people.

The Congo Expedition

In 1874, Stanley and Livingstone embarked on a joint expedition to explore the Congo River. The Congo River is the second longest river in the world, and it is one of the most treacherous.

Stanley and Livingstone's expedition was plagued by problems from the start. They were attacked by hostile tribes, they were plagued by disease, and they nearly starved to death.

Despite the hardships, Stanley and Livingstone persevered. They reached the mouth of the Congo River in 1877, and they had made a major contribution to the exploration of Africa.

The Congo Expedition was a major turning point in Stanley's career. It made him one of the most famous explorers in the world, and it helped to

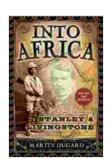

open up the Congo River to trade and development.

The Legacy of Stanley and Livingstone

Stanley and Livingstone were two of the most important explorers of the 19th century. Their epic adventures in Africa helped to shape our understanding of the continent, and they inspired generations of explorers and adventurers.

Stanley and Livingstone's legacy is still felt today. The Congo River is now a major trade route, and the countries of central Africa are some of the most populous and prosperous on the continent.

Stanley and Livingstone's story is a reminder of the human spirit of exploration and discovery. Their journey across Africa was one of the greatest feats of exploration in history, and it helped to open up the continent to the world.
